Subject: High Canal Embankment Repair Project
Pedestrian Detour during Construction

Dear Homeowner:

Please be advised that the Public Works Department for the Town of Corte Madera will be starting a construction project on September 3rd through early November to repair four slope failures along the High Canal drainage channel. Normal working hours for the project are tentatively scheduled from 8am-5pm.

In general, when working in the vicinity of schools it is our goal to deliver projects while school is out of session. However, as part of the environmental compliance analysis for the project and coordination with resource permitting agencies (California Fish and Wildlife, Regional Water Quality Control Board, and Army Corp. of Engineers) several avoidance measures were identified that limited the construction window within the waterway to only the months of September and October.

In an effort to minimize public inconvenience, we have identified a pedestrian detour route (see reverse of this page) and we appreciate your cooperation through the duration of our project. At Doherty Drive and Lucky Drive, safe passage of pedestrians will be maintained at all times and construction-related deliveries will be scheduled to avoid school drop off and pick up, when possible. However to ensure safety, it is likely that the High Canal path will be closed to the public for the duration of the project (including nights and weekends). Also, upon completion of the slope repairs the gravel and asphalt paths will be restored to pre-existing condition.

Should you have any questions please feel free to contact Public Works at pwcounter@tcmmail.org or 415.927.5057.

Regards,

R.J. Suokko
Acting Town Engineer
Department of Public Works
