## I. SUBSTANTIAL IMPROVEMENT CALCULATION

Estimated Value of Improvement (I): \_\_\_\_\_

Depreciated Value of Existing Structure (S): \_\_\_\_\_

Improvement Ratio (I/S): \_\_\_\_\_

Improvement Valuation Method:  Job Valuation Method  
 Other \_\_\_\_\_

Existing Structure Valuation Method:  Appraised Value from Appraisal Report  
 County Assessed Value  
 Other \_\_\_\_\_

## II. 5-YEAR CUMULATIVE IMPROVEMENT CALCULATION

Estimated Value of Previous Improvements (P): \_\_\_\_\_

Cumulative Value of Improvements (P+I): \_\_\_\_\_

Depreciated Value of Existing Structure (S): \_\_\_\_\_

Cumulative Improvement Ratio ((P+I)/S): \_\_\_\_\_

NOTE: The determination of “substantial improvement” or “substantial damage” is defined in the Town of Corte Madera Municipal Code Chapter 16.10 “Flood Damage Prevention” as “Any act or acts of reconstruction, rehabilitation, addition or other proposed new development of a structure occurring both after October 7, 1999 and within the five years immediately preceding the current application, regardless of any change in ownership during this time period, which act or acts aggregated have a total cost that equals or exceeds fifty percent of the market value of the structure before the ‘start of construction’ of the improvement.” The determination of “substantial improvement” or “substantial damage” is based upon the improvement ratio and cumulative improvement ratio calculated above, and if the cumulative improvement ratio equals or exceeds 50%, then the structure must conform to the flood hazard reduction provisions of Chapter 16.10.

Use of the term “improvement” within the context of this permit implies: improvements to an existing structure, repairs to a damaged structure, and/or construction of a new structure.
