

**Workshop to Learn About
Ongoing Housing Policy Efforts in Corte Madera**

Tuesday, April 27, 2021 7pm via zoom

Please join us at an upcoming joint Planning Commission/Technical Advisory Working Group workshop on April 27th at 7:00 pm to learn more about the ongoing housing policy efforts in Corte Madera, including the development of the Objective Design and Development Standards (ODDS) Toolkit. The project consultant, Opticos Design, will provide an overview of the ODDS Toolkit and there will be an opportunity for Q&A. Planning staff will also discuss the Town's two-step approach to implementing the Objective Design and Development Standards in Corte Madera.

The purpose of the Objective Design and Development Standards Toolkit is to provide clear parameters for multi-family and mixed-use housing projects in Corte Madera. This effort is necessary to address current and future State housing legislation intended to limit local jurisdiction's discretion related to the approval or denial of multi-family housing and to further the housing policies and goals of the Town.

Please use the webpage below to access the zoom link to join and participate in the joint working group meeting on April 27, 2021:
